SUMMARY

Cybersecurity professional with hands-on experience in penetration testing, vulnerability assessment, and web application security. Skilled in identifying OWASP Top 10 vulnerabilities using tools such as Burp Suite, Nmap, SQLMap, Wireshark, and OWASP ZAP. Strong understanding of networking, SIEM concepts, and security frameworks with practical exposure through internships and security-focused projects.

EXPERIENCE

Cartel Software

Dec 2025 – Present

Penetration Testing Intern / Bangalore

- Performed penetration testing on 5+ web applications and identified 15+ vulnerabilities including XSS, SQL Injection, and authentication flaws.
- Analyzed 50+ HTTP requests using Burp Suite to detect session management and input validation weaknesses.
- Conducted reconnaissance and network scanning on 20+ endpoints using Nmap to identify exposed services and misconfigurations.
- Automated security testing workflows using SQLMap and OWASP ZAP, reducing manual effort by 30%.
- Assessed vulnerabilities using CVSS scoring methodology and prioritized high-risk findings.
- Prepared detailed vulnerability reports with proof-of-concept exploits and remediation recommendations.

Outlier.ai

June 2024 – Oct 2025

AI Trainer (Freelance) / Remote

- Evaluated 200+ AI-generated outputs and identified logical inconsistencies, validation gaps, and edge cases.
- Improved response accuracy through analytical testing and structured validation approaches.
- Delivered detailed reports contributing to improved AI model reliability and performance.

NTPC Ltd.

June 2022 – Sep 2022

ERP / SAP Trainee / Korba, Chhattisgarh

- Validated and analyzed 1000+ enterprise records using SQL queries and SAP workflows.
- Identified operational inconsistencies and improved data accuracy across workflows.

The Sparks Foundation

Nov 2021 – May 2022

Web Developer & Design Trainee / Remote

- Developed responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Integrated backend functionality using PHP and SQL for database-driven applications.

EDUCATION

B.Tech in Computer Science & Engineering

2019 – 2023

Chhattisgarh Swami Vivekanand Technical University

CGPA: 7.89 / 10

TECHNICAL SKILLS

Security	Penetration Testing, Vulnerability Assessment, Risk Analysis, SIEM, CVSS
Web Security	OWASP Top 10, XSS, SQL Injection, Authentication Bypass
Tools	Burp Suite, Nmap, SQLMap, OWASP ZAP, Wireshark, Nikto, IBM QRadar
Networking	TCP/IP, DNS, HTTP/HTTPS, OSI Model, Network Scanning
Frameworks	ISO/IEC 27001, NIST Cybersecurity Framework
Operating Systems	Kali Linux, Windows
Programming	Python (Basic), SQL, JavaScript, HTML, CSS

PROJECTS

CrypTrion – Cybersecurity Website

- Conducted vulnerability assessment aligned with OWASP Top 10 standards.
- Identified and mitigated 5+ security vulnerabilities related to improper validation and authentication.
- Documented security findings with remediation and mitigation strategies.

Wanderlust – Full Stack Web Application

- Discovered and reported 8+ vulnerabilities including authentication bypass issues.
- Improved application security posture by identifying weaknesses in validation and session handling.
- Prepared structured bug reports with reproducible proof-of-concept steps.

CERTIFICATIONS

- Certified Ethical Hacker (CEH) – Pursuing
- SQL and Relational Databases – IBM

CYBER SECURITY TRAINING

- Strong understanding of CIA Triad, threats, vulnerabilities, and risk management.
- Familiar with SIEM concepts and IBM QRadar log monitoring workflows.
- Knowledge of vulnerability management lifecycle and remediation practices.
- Exposure to ISO 27001 security controls and NIST cybersecurity standards.

ACHIEVEMENTS

- Represented Chhattisgarh in National School Games (2017, 2018) for throwball and football.
- Participated in National Scouts and Guides Jamboree (2017).
- Competed in multiple state-level sports tournaments during school academics.
